EZRAIDER

WE INVENTED

A NEW VEHICLE CATEGORY

NOW KNOWN AS:

**STAND-UP
PERSONAL ATV**

OUR INNOVATION & VISION

The new vehicular category we invented enables you to ride on a narrow, stable, and safe, four-wheel vehicle with extreme off-road capabilities previously solely reserved for mountain bicycles and dirt bikes.

This vehicle provides a unique riding experience that feels like a combination of surfing and riding a dirt bike with the stability of a four-wheel vehicle.

These unique characteristics and capabilities place the EZRaider at the forefront of all-terrain & urban eco-friendly personal mobility.

WE ARE THE GO-TO
PLATFORM FOR
STAND-UP PERSONAL

REGULATIONS

A photograph of three people riding ATVs on a rocky, dusty trail during sunset. The rider in the foreground is wearing a white helmet, goggles, a black shirt, and white shorts with knee pads. They are riding a black and silver ATV. Two other riders are visible in the background, one further back and one slightly behind the main rider. The scene is filled with dust and a warm, golden light from the setting sun.
